13. APPROVE RESOLUTION
The Delaware Area Career Center Board of Education (the “Board”), the Delaware Area Career Center Education Association (the “Association”), acknowledge and agree to the following changes for any academic instructor to whom this applies:

Whereas, the Delaware Area Career Center high school is prepared to offer College Credit Plus academic courses; and

Whereas, teachers need to meet the Ohio Department of Higher Education standards to be approved to teach such College Credit Plus; and

Whereas, the Ohio Department of Higher Education requires a minimum of a Master’s degree and 18 hours of a coherent set of content courses to teach College Credit Plus; and

Whereas, each college makes the final determination about what credentials a high school instructor must have obtained to teach College Credit Plus; and

Whereas, academic teachers hired since 2014 were required to earn their Master’s degree in the content area; and

Whereas, the teacher will be required to earn the 18 hours no later than the date as the expected Master’s degree as listed on the DACC board meeting minutes when hired, and

Whereas, some DACC academic instructors work with at risk students and do not teach College Credit Plus courses;

Therefore, let it be resolved that any teacher who has been hired at DACC between 2014 and January 31, 2017, and who is required to earn a Master’s degree in the academic content area, may now earn 18 hours of a coherent set of courses in a content area, beyond a Master’s degree, to teach College Credit Plus courses, pending approval by the respective college/ university, and such credits will be completed by the same date as the Master’s degree as designated on the DACC board meeting minutes when teacher was hired. If an instructor is teaching at risk students, in non-College Credit Plus courses, he/she may present to the superintendent, for approval, an alternative plan of coursework hours that will benefit the teacher and the students.

MISSION: The Delaware Area Career Center, in partnership with community, is an innovative model for developing lifelong learners, quality leaders, and critical thinkers for the dynamic and global environment.
