

In the Health Technology career pathway, you will apply advanced health care concepts, processes, and diagnostic procedures in a hands-on, technology-driven, clinical environment. While working in our hospital lab, focus will be given to medical terminology, anatomy, physiology, and infection control.

Curriculum Highlights:

Develop a professional work ethic, medical skills, patient/client care, and confidentiality.

Areas of study include:

- Anatomy, physiology, and medical terminology
- Nurse aid training program
- Infection control and sterile techniques
- Internship
- Patient care skills and clinical procedures
- Working in an advanced care setting
- CPR/AED/First Aid
- Phlebotomy

Career Focus:

Qualified students will be prepared for immediate employment, such as a State Tested Nursing Assistant or Phlebotomist. Most college nursing programs require students to obtain their STNA.

With further education and certifications, you can become:

Registered Nurse	Phlebotomist
Licensed Practical Nurse	Nursing Assistant
Nurse Practitioner	Physician Assistant
Occupational Therapist	Imaging Technician
Surgery Technician	Radiology Technician
Respiratory Therapist	Registered Dietician

“I came to DACC because I wanted to get a head start on college and my career. I want to be a Labor and Delivery Nurse and this program is giving me practical experience that gives me a feel for what it’s like to be in the field. I’ll already be a step ahead when I go to college because of the work I’m doing here.”

-Victoria Jenkins
Health Technology Student

This 2-year program prepares students for medical and health-related careers that require post-secondary education.

Pre-requisites include being on track for graduation with at least 10 credits. We suggest that you complete Biology and Algebra I with a “C” or higher. Graduates earn certificates in First Aid, CPR, AED, Phlebotomy and Nurse Assisting.

Additional Opportunities:

- You will receive mentorship opportunities during your senior year.
- You may even have the certification to work as a nursing assistant in the field as you pursue your formal post-secondary education.
- Due to your real world experience and hands-on training, you will be a step ahead of other nursing program applicants.
- Our program includes strong partnerships with local health professionals and college credit agreements with several colleges.
